* Explanation of the proper use of financial forecasts and other important notes

Of all plans, forecasts, strategies and other information provided within this document, those which are not historical facts are future outlooks based upon certain conditions and our management's judgement based upon currently available data.

Therefore, we warn against relying solely on these outlooks in assessing our business results, corporate value and other factors. Please also be informed that actual financial results may vary widely from our forecasts due to various factors.

Important factors that may have an impact upon our actual financial results include: (1) The economic and the financial conditions surrounding our Company and changes in the employment situation, (2) damage to infrastructure arising from disasters, including earthquakes, and (3) changes in the relevant laws, including the Labor Standards Law and the Worker Dispatch Law, and in interpretations of thereof. However, these factors that affect our financial results may not be limited to only these.

Furthermore, please bear in mind that notwithstanding new data, future events or any other results whatsoever, we may choose not to reexamine our forecasts.

For the assumptions underlying our business forecasts and related issues, please refer to "(1) 2) Outlook for the September 2011 Fiscal Year of "Appendix" on page 8.

1. Results of Operations

(1) Analysis of Operating Results

1) Results of Operations for the Period

During the fiscal year under review, the Japanese economy was subject to the lingering effects of a widespread recession caused mainly by the Lehman Shock of two years ago. However, a gentle recovery was observed thanks to overseas economic reforms and to the results of emergency economic measures. However, due to factors such as a rapidly appreciating yen and a slowdown in the global economy, business confidence continues to be cautious regarding the future outlook. In the staffing service industry, there has been gentle improvement in overall indexes including the jobs-to-applicants ratio and the overall unemployment rate. However, corporations remain concerned over excessive employment and operating conditions remain severe.

Given this economic environment, our Group sought to achieve profitability in the fiscal year under review in accordance with our “New Three-year Plan” which was announced on May 8, 2009. We worked to strengthen our revenue base by focusing on our Short-term operational support business and by performing further restructuring of our sales support business.

In addition to downsizing through restructuring measures such as personnel cuts and consolidation of offices which were performed in the previous fiscal year, we also conducted sale of shares of our subsidiaries throughout the previous fiscal year. These activities resulted in net sales of 36,084 million yen (a 37.0% decline compared to the previous fiscal year).

In terms of profits, we recorded operating income in all of our business segments with the exception of the sales support business. We achieved consolidated operating income of 1,331 million yen (compared with an operating loss of 682 million yen in the previous fiscal year) and consolidated ordinary income of 1,223 million yen (compared with an ordinary loss of 925 million yen in the previous fiscal year).

We recorded extraordinary losses of 1,485 million yen, including loss on valuation of investment securities of 543 million yen, incurred business structure improvement expenses of 343 million yen, an allowance for employment adjustment of 200 million yen and head office transfer costs of 150 million yen. We recorded extraordinary income of 782 million yen, including a gain on change in equity of 359 million yen, gain on sales of subsidiaries and affiliates' stocks of 185 million yen, and government subsidy received of 181 million yen. In total, we achieved a net income of 541 million yen for the fiscal year (compared with a net loss of 6,870 million yen in the previous fiscal year), and realized a return to profitability after restructuring.

Notes1 : In the previous fiscal year, the shares of Asia Pacific System Research Co., Ltd. and its consolidated subsidiaries, Info-P Co., Ltd., Fullcast Finance Co. Ltd., Fullcast Factory Co. Ltd., Fullcast Central Co. Ltd., and Net It Works Inc. were transferred and therefore excluded from the scope of consolidation. Additionally if the influence of the exclusion from the scope of the consolidation of these subsidiaries during the previous consolidated fiscal year is excluded, consolidated net sales would have declined by 11.1% year on year, and the operating loss of the same period of the previous year would be 786 million yen.

Financial results by business segment are as follows. Figures for the previous fiscal year reflect segment information in accordance with new business segments.

a) Short-term operational support business

Net sales of 22,737 million yen (a 4.8% decline compared to the previous fiscal year) were recorded due to continued stagnation in overall demand for personnel dispatching and to revisions of business scale associated with restructuring.

In terms of profits, despite a severe economic environment, an operating income of 1,583 million yen (compared with an operating loss of 408 million yen in the previous fiscal year) was recorded on the back of personnel cuts, consolidation of offices and other measures to reduce selling, general and administrative expenses and efforts to raise productivity through strengthened management.

Note 1 : When the influence of subsidiaries is excluded from the net results during the previous fiscal year, there was a year-on-year decline of 3.9% in net sales and a year-on-year loss of 404 million yen in operating income.

Note 2 : Starting in the first quarter of the current fiscal year, new business segments definitions have been applied. The clerical employee dispatching services that were included in “the Office business segment” in the fiscal year ended September 2009 are now included in “the Short-term operational support business”.

b) Sales support business

We acquired East Communication Inc. and EKO-SYSTEM Inc. as our subsidiaries and strengthened our call center business. However, the sales support business recorded net sales of 6,845 million yen (a 14.2% decline compared to the previous fiscal year) due to stagnant sales of main products in both direct sales and the agent sales business. Furthermore, in the third quarter, we responded to stagnant sales by withdrawing from the direct sales business and the mobile phone shop business, which also contributed to the decline.

In terms of profits, from the third quarter we reduce sales, general and administrative expenses by moving our headquarters and consolidating offices. However, we were unable to supplement the declined revenue, and we recorded operating losses of 165 million yen (compared with an operating loss of 1 million yen in the previous fiscal year).

Note 1 : There was no influence from subsidiaries excluded from the consolidated scope during the previous fiscal year.

Note 2 : Starting in the first quarter of the current fiscal year, new business segments have been applied. The clerical employee dispatching services that were included in “the Office business” segment in the fiscal year ended September 2009 are now included in “the Short-term operational support business”.

c) Technician dispatch business

We recorded net sales of 4,280 million yen (a 69.6% decline compared to the previous fiscal year) in the technician dispatch business, which was largely the result of business restructuring performed by selling subsidiaries in the previous fiscal year and reductions in the number of functioning personnel for technical dispatch when compared to the previous fiscal year associated with a restructuring of the business scale for Fullcast Technology Co., Ltd.

In terms of profits, we recorded operating income of 263 million yen (a 61.6% decline compared to the

previous fiscal year). Despite the effect of restructuring, such as personnel cuts and a reduction in rent due to aggregation of company housing, this decline resulted primarily from the effect of declined profits caused by sale of subsidiaries in the previous fiscal year.

Note 1 : When excluding the influence of subsidiaries from net results during the previous fiscal year, there was a year-on-year decline of 34.0% in net sales and a operating income of 234 million yen.

Note 2 : There was no influence from changes in business segments which were performed from the consolidated first quarter of the current fiscal year.

d) Security, other businesses

Due to the effect of sale of subsidiaries in the previous fiscal year, the security, other business recorded net sales of 2,221 million yen (a 52.7% decline compared with the previous fiscal year).

In terms of profits, we recorded operating income of 77 million yen (a 22.2% decline compared to the previous fiscal year). Due to reductions in selling, general and administrative expenses through restructuring measures such as personnel cuts, we were able to maintain profitability despite a major fall in revenue when compared to the previous fiscal year.

Note 1 : When excluding the influence of subsidiaries from net results during the previous fiscal year, there was a year-on-year decline of 9.8% in net sales and a operating income of 7 million yen.

Note 2 : There was no influence from changes in business segments which were performed from the consolidated first quarter of the current fiscal year.

2) Outlook for the September 2011 Fiscal Year

Projected consolidated business results for the fiscal year ending September 2011

(October 1, 2010 – September 30, 2011)

(Million yen)

	Fiscal year ended September 2010 Actual results	Fiscal year ending September 2011 Projection	Increase/ Decrease
Net sales	36,084	38,393	6.4%
Short-term operational support business	22,737	25,703	13.0%
Sales support business	6,845	5,423	-20.8%
Technician dispatch business	4,280	4,686	9.5%
Security, other businesses	2,221	2,580	16.2%
Operating income	1,331	2,125	59.7%
Ordinary income	1,223	2,057	68.2%
Net income	541	1,749	223.4%
Net income per share (yen)	1,405.10	4,544.46	—

(Note) 1. Estimated net income per share for the year ending September 2011 is calculated using the following formula.

$$\text{Estimated net income per share} = \frac{\text{Forecast for net income applicable to common stock}}{\text{Estimated number of common shares outstanding during the fiscal year ending September 30, 2011}}$$

The outlook by business segment is as follows:

a) Short-term operational support business

◇ The business will achieve increased revenue and profits by strengthening links between groups in the Short-term operational support business such as implementing personnel exchange of group executives, consolidation and merging of group offices, and the unification of the group personnel system and by developing employee skills through improving the productivity and the strengthening management which are achieved by the standardization of office work and layout, revising the function of offices, increasing in the number of senior managers, enhancement of managers and leaders' training programs and adjustment of the management size.

b) Sales support business

◇ In the call center business and agent sales business, in order to ensure the effectiveness of restructuring performed in the fiscal year ended September 2010, we will seek to achieve the stable profitability by strengthening the management system.

◇ An increase in both sellers' and buyers' needs is forecast for the used mobile phone purchasing and sales business. The business seeks to achieve positive operating income by promoting expansion of franchises in this business.

c) Technician dispatch business

- ◇ Although the demand for technician dispatch from development and design departments of companies in the manufacturing industry are encountering severe operating conditions, many forecast a continuation of a gentle recovery. The technician dispatch business will seek stable expansion of revenue by actively responding to new personnel needs.
- ◇ The business Meet the needs of corporate customers and seek to improve added value by enhancing education and training for technicians.

d) Security, other businesses

- ◇ Demand for the security business is steady and we will seek stable expansion of revenue.

(2) Analysis of the Financial Position

1) Assets, liabilities and net assets

At the end of the current fiscal year, our total consolidated assets declined by 1,593 million yen to 11,479 million yen. Shareholders' equity increased by 510 million yen to 1,802 million yen (shareholders' equity ratio of 15.7%) and net assets rose by 767 million yen to 2,491 million yen.

The Company declined its capital to compensate for the deficits based on a resolution of the Annual General Meeting of Shareholders held on December 22, 2009, which declined capital stock and capital surplus by 961 million yen and 1,169 million yen respectively, while retained earnings increased by 2,130 million yen. As a result, capital stock and capital surplus at the end of the current fiscal year stood at 2,780 million yen and 2,013 million yen respectively.

Major changes in assets and liabilities are as follows.

With regards to assets, current assets declined by 420 million yen from the end of the previous fiscal year to 9,737 million yen. This change is mainly attributed to a 103 million yen increase in cash and deposits to 5,017 million yen, a 71 million yen increase in notes and accounts receivable-trade to 4,112 million yen, and a 172 million yen increase in deferred tax assets to 186 million yen. Other factors contributing to the change were a 111 million yen decline in products to 23 million yen, as well as a 669 million yen decline in current assets to 408 million yen, which was caused by a decline in accounts receivable-trade.

Noncurrent assets declined by 1,173 million yen from the end of the previous fiscal year to 1,741 million yen. This change was mainly attributed to a 395 million yen decline in guarantee deposits to 643 million yen, which was associated with the transfer of the head office, and other factors. Furthermore, due to loss on valuation of investment securities declined by 370 million yen to 485 million yen.

With regards to liabilities, current liabilities declined by 634 million yen from the end of the previous fiscal year to 7,798 million yen. This change was due to a decline of 282 million yen to 1,730 million yen for the current portion of long-term loans payable based on agreed payment schedules. Furthermore, due to a decline in accrued consumption taxes, accounts payable declined by 191 million yen to 1,647 million yen.

Noncurrent liabilities declined by 1,725 million yen from the end of the previous fiscal year to 1,190 million yen. This change was mainly attributed to a 1,730 million yen decline to 670 million yen in long-term loans payable based on agreed payment schedules.

2) Cash flows

At the end of the fiscal year under review, cash and cash equivalents (“cash”) declined by 47 million yen from the end of the previous fiscal year to 4,867 million yen as of the end of the current fiscal year (A decline of 4,963 million yen from the previous year).

(Cash flows from operating activities)

Accrued consumption taxes declined by 393 million yen, earnings from change in equity were 359 million yen, gain on sales of affiliated companies were 185 million yen, 135 million yen was paid in corporate taxes and 114 million yen was paid in interest. Furthermore, income before income taxes and minority interests was 520 million yen, depreciation and amortization was 326 million yen, loss on valuation of investment securities was 543 million, notes and accounts receivable-trade declined by 225 million yen, insurance funds declined by 245 million yen and accounts receivable-other declined by 271 million yen. Consequently, net cash provided by operating activities was 1,951 million yen. (In the previous year, net cash provided by operating activities was 1,401 million yen.)

(Cash flows from investing activities)

Sale of investments in subsidiaries led to income of 223 million yen, purchase of investment securities resulted in an outflow of 301 million yen, payments into time deposits resulted in an outflow of 300 million yen (income of 100 million yen due to proceeds from withdrawal of time deposits) and purchase of property, plant and equipment resulted in an outflow of 104 million yen. Therefore net cash used in investing activities was of 348 million yen. (In the previous year, net cash provided by investing activities was 1,573 million yen.)

(Cash flows from financing activities)

We realized income of 425 million yen from proceeds of stock issuance to minority shareholders due to third party placement by subsidiary companies. Furthermore, we saw an outflow for the repayment of long-term loans payable of 2,012 million yen. Consequently net cash used in financing activities was 1,651 million yen. (In the previous year, net cash used in financing activities was 7,937 million yen.)

Trends in Cash Flow Indexes

	Fiscal year ended September 2008	Fiscal year ended September 2009	Fiscal year ended September 2010
Shareholders' equity (Million yen)	7,573	1,292	1,802
Shareholders' equity ratio (%)	20.6	9.9	15.7
Ratio of interest-bearing debt to cash flow (%)	15,392.6	410.4	294.3
Interest coverage ratio (times)	0.4	8.4	16.1

Shareholders' equity = Total net assets – Stock subscription rights – Minority interest

Shareholders' equity ratio = shareholders' equity ÷ total assets x 100

Ratio of interest-bearing debt to cash flow = Interest-bearing debt ÷ Operating cash flow (before interest and corporate taxes)

Interest coverage ratio = Operating cash flow (before interest and corporate taxes) ÷ interest paid

Notes 1: Each index is calculated based upon consolidated financial figures.

2: For operating cash flows (before interest and corporate taxes, etc.), cash flows (before interest and corporate taxes, etc.) from operating activities in the consolidated cash flow statement are used.

3: All debt involving the payment of interest and stated in the consolidated balance sheet are included in interest-bearing debt.

4: For interest payment, the amount of interest paid in the consolidated cash flow statement is used.

(3) Fundamental Policy for Allocation of Earnings and Dividends for the Fiscal Year under Review and the Next Fiscal Year

The return of profits to shareholders as a means of cultivating intermediate to medium to long-term investors is an important management issue.

With regards to dividends, we will base the level of dividend payment on our earnings trends, profit growth, and investment plans. We plan to maintain two dividend payments per year, one at the end of both the interim and full year period. Furthermore as defined in our articles of incorporation, both interim and year-end dividend payments will be decided upon during our board of directors' meeting.

Since there is currently no amount available for distribution, we have decided to forgo paying interim and year-end dividends during the current term (year ended September 2010). Furthermore we expect to forgo dividend payment in the next term (year ended September 2011) as part of our effort to fortify our financial base. It is our goal to quickly establish stability in our business operations in order to begin paying dividends again and to promote growth in our various businesses.

(4) Risks Associated with Businesses

Major potential risk factors for the Group in the course of its operating businesses are described below. However, as part of our policy to be proactive in the disclosure of information to investors, the description may also include matters that do not necessarily fall under the category of business risk but may be regarded as important for investors in making investment decisions or understanding the Group's business activities. The Group seeks to proactively identify potential business risks, prevent their occurrence and take adequate measures to address them should they emerge nonetheless. The following statement may contain risk factors forecast for the future, although it is based on our best judgment as of the date of reporting of these financial statements.

1) The Group's Policy for Business Growth

We endeavor to raise our competitive position by strict adherence to corporate governance, achieving speed in the strategic decision making process of our management and in the implementation of various strategies. At the same time we will respond quickly to changes in the operating environment in each of our business segments by promoting a strategy of "selection and concentration" to create a restructured Group that is highly flexible. However in the event that our restructuring takes longer than anticipated, and the contribution to our earnings does not proceed as planned, our Group's earnings could be negatively impacted.

Furthermore we will promote the Short-term operational support business going forward by implementing a hiring policy designed to respond to the current employment conditions. But our Group's earnings could be seriously impacted in the event that the earnings of this business do not trend as expected, or should the amendment of the Worker dispatching law force us to take time in converting our business model.

In our Sales support business, we provide sales support for communication products and operate call center functions. However our earnings could be impacted in the event that this business's earnings do not trend as

expected, if a large infusion of capital is required, or should the attractiveness of the products being sold deteriorate.

In addition we maintain a policy of selling shares in affiliates or marketable securities of companies which do not offer synergies with any of our Group's businesses. Also our Group's earnings could be profoundly impacted by implementation of impairment accounting during times when market capitalization or the actual value of companies whose shares we hold deteriorate.

2) Legal Regulations

a) Changes in Legal Regulations

Our Group earnings could be largely impacted by revisions or changes in the interpretation of the Worker dispatching law, Labor standards act, Employment security act, Workmen's accident compensation insurance law, Health insurance act, Employees pension insurance act, and other related laws resulting from changes surrounding the labor market.

In the future, there is the possibility that amendment to the Worker dispatching law could be approved by the Cabinet and passed by the Diet. If passed, the revised law would fundamentally prohibit registered worker dispatch excluding highly specialized work and worker dispatch with an employment period of 2 months or less. Going forward we will endeavor to create a business model that appropriately responds to the bill of the law, and will gradually shift our business to a model based on "short term worker introduction" and "short term outsourcing for clerical employment tasks." In the future we will perform Short-term operational support business but our Group's earnings could be largely impacted by revisions and changes in the interpretation of law.

b) Employee Dispatching Service

The Group provides employee dispatching services under the license of Minister of Health, Labor and Welfare in accordance with the Worker dispatching law. If the Group should be subject to disqualification, our license could be cancelled, or orders to suspend or halt our operations could be issued.

The Group is committed to compliance and risk management to prevent any violation of laws and ordinances, but if licenses should be cancelled or if other measures should be taken, we may be prevented from providing employee dispatching services, which could seriously impact the performance of our Group.

c) Onsite Subcontracting Service

As an onsite subcontracting service provider based on sub-contracts, the Group completes its contracted work independently at the direct client company of such contract. In carrying out the work involved, we follow the commonly accepted practices (as defined in Notice No. 37 of 1986 by Japan's Ministry of Labour) that separates and distinguishes between the employee dispatching and the subcontracting business and other relevant laws and regulations. Prior to executing work, we confirm the details of the subcontracted tasks — such as their content, scope and the stipulated completion date with the client company.

However, in the event when any disparity should occur in the interpretation thereof with a client company as we perform these tasks, it may become difficult or impossible to collect our payment due, which could impact our Group's earnings.

d) Sharing of Social Insurance Contributions

With regards to social insurance participation, those workers who work for less than three quarters of normal working hours are excluded from participation. Furthermore, we employ similar participation guidelines with regards to the Employees' pension insurance act and the National health insurance law. The majority of staff hired in our Short-term operational support business is short term workers and are exempted from participation in the social insurance system.

Also, as a result of the revision implemented on April 1 2010 to the employment insurance system, the enrollment conditions for employment insurance was relaxed from "six months or more" to "31 days or more".

There is a possibility that amendment to the Worker dispatching law will prohibit worker dispatch of two months or less. This would result in increased numbers of workers being enrolled in social insurance over the medium to long-term worker dispatch. In such case, payments for social insurance would increase.

Furthermore, in conjunction with relaxed enrollment conditions for employment insurance, procedures for income and loss have become troublesome. Therefore, there is the possibility that fees for clerical work may also increase. In the event that we cannot pass along these higher costs to our customers in the form of higher prices or absorb them through increased efficiency of our overall operations and other cost cutting measures, our Group's earnings could be negatively impacted.

3) Managing the Database on Client Firms and Staff

Our Group always strives to provide staff most suited to the needs of client companies and deploy staff for clients promptly and efficiently. To facilitate this, the Group manages a database that contains information on staff work attitudes and experience by job classification as well as on clients.

To be prepared for the eventuality of a malfunction in a server, the Group is equipped with servers having duplicate functions to back-up a database. However, if these servers were fail simultaneously as a result of troubles such as earthquakes or other natural disasters, the Group's operations would be seriously impeded and its earnings may be negatively impacted.

In the future, we expect to make investments in information technologies as needed to help differentiate our Company from our competitors in terms of costs and services offered. Deterioration in the effectiveness of these investments could decline their contribution to sales and earnings growth.

To appropriately manage personal information and other data, we endeavor to prevent unauthorized access, as well as loss, destruction, falsification or unauthorized disclosure of personal information by establishing clear handling rules, strictly controlling access rights to the system and stepping up internal inspections. However, our Group earnings could be largely impacted if any security breaches of the personal information we maintain occur, the Group could lose the confidence of the public, and claims for damages could result.

Our information security and control system was strengthened to cover not only the personal information but also information assets required to continue business such as customer and sales information. In so doing, the Group continues to improve information security in its business activities.

4) Workplace Accidents and Transaction-Related Trouble

In the event that a staff dies, is injured or becomes ill at work or due to some causes attributable to the work, our Group, as an employer, may become responsible to pay compensation according to the relevant laws and regulations including the Labor standards law and the Workers' accident compensation insurance

law. (Destination business owners that are our clients bear the employer's liability in accordance with the Industrial Safety and health law, and are obliged to protect the safety of staff in accordance with the Civil Code.)

The Group is enhancing staff awareness on safety by promoting occupational health and safety training, as well as safety equipment and releasing bulletins for on-the-job vigilance to prevent injury and illness. To provide better worker protection, the Group has taken out an insurance program to pay agreed claims as a Comprehensive general liability insurance. However, should an accident not covered by any of this insurance occur, the Group could be forced to pay damages on the grounds of neglecting its duty to safety and be liable for any illegal activity which is stipulated in labor contracts.

In addition, the Group could be sued or pressured to make other payments, on allegations of staff negligence, of the violation of a contract with a client or of our staff's illegal activities. Although the Group has a compliance system under which personnel in charge of legal affairs can handle various legal risks, the performance may suffer a serious impact through such an accident depending on its nature and the amount of money involved.

5) Securing and Retaining Employees

In order to improve employee retention, our Group implements measures to enhance employee training and to increase employee motivation. However, in the future, the loss of a greater than expected number of personnel could influence our Group's various business segments.

Also, the securing of skilled technicians is a major issue in the Technician dispatch business. In the event that we are unable to secure and retain technicians in accordance with our plan, our Group's earnings could be negatively impacted.

2. Corporate Group

Our Group is expanding the “Short-term operational support business” (providing timely short-term personnel services focusing on “blue collar” work in response to increases or declines in the amount of work at corporate customers), the “Sales support business” (operating the call center business and agent sales handling mainly communications equipment), the “Technician dispatch business” (providing technical personnel services focusing mainly on the design, development and manufacturing processes of the manufacturing industry), and the “Security, other businesses” (providing security services mainly for public facilities and ordinary corporations)

We provide a status of affiliated companies and a diagram of business activities as of September 30, 2010 below.

(1) Status of Affiliated Companies

Company	Location	Capital (mil. yen)	Major business activities	Voting shares (%)	Issues to be noted
Fullcast Co., Ltd.	Shinagawa-ku, Tokyo	80	Short-term operational support business	100.0	- Interlocking directorates: 3 - Provides financial support (borrowing and lending operating capital)
Top Spot Co., Ltd.	Shinagawa-ku, Tokyo	80	Short-term operational support business	100.0	- Interlocking directorates: 2 - Provides financial support (borrowing and lending operating capital)
Fullcast Marketing Co., Ltd.	Shinagawa-ku, Tokyo	293	Sales support business	54.4	- Interlocking directorates: 1 - Provides financial support (borrowing and lending operating capital)
Marketing Square Co., Ltd. *2	Shinagawa-ku, Tokyo	29	Sales support business	100.0 (100.0)	—
Telecom Marketing Co., Ltd.	Shinagawa-ku, Tokyo	90	Sales support business	65.0 (65.0)	- Interlocking directorates: 1
East Communication Inc.	Sapporo city, Hokkaido	90	Sales support business	51.0 (51.0)	- Interlocking directorates: 1
EKO-SYSTEM Inc.	Rumoi city, Hokkaido	90	Sales support business	51.0 (51.0)	- Interlocking directorates: 1
Fullcast Technology Co., Ltd.	Shibuya-ku, Tokyo	864	Technician dispatch business	68.6	- Interlocking directorates: 3
Fullcast AdvanceCo., Ltd	Shinagawa-ku, Tokyo	80	Security, other businesses Short-term operational support business	100.0	- Interlocking directorates: 2 - Provides financial support (borrowing and lending operating capital)
Fullcast Business Support Co., Ltd.	Shinagawa-ku, Tokyo	9	Entire company	100.0	- Interlocking directorates: 1 - Provides financial support (borrowing and lending operating capital)

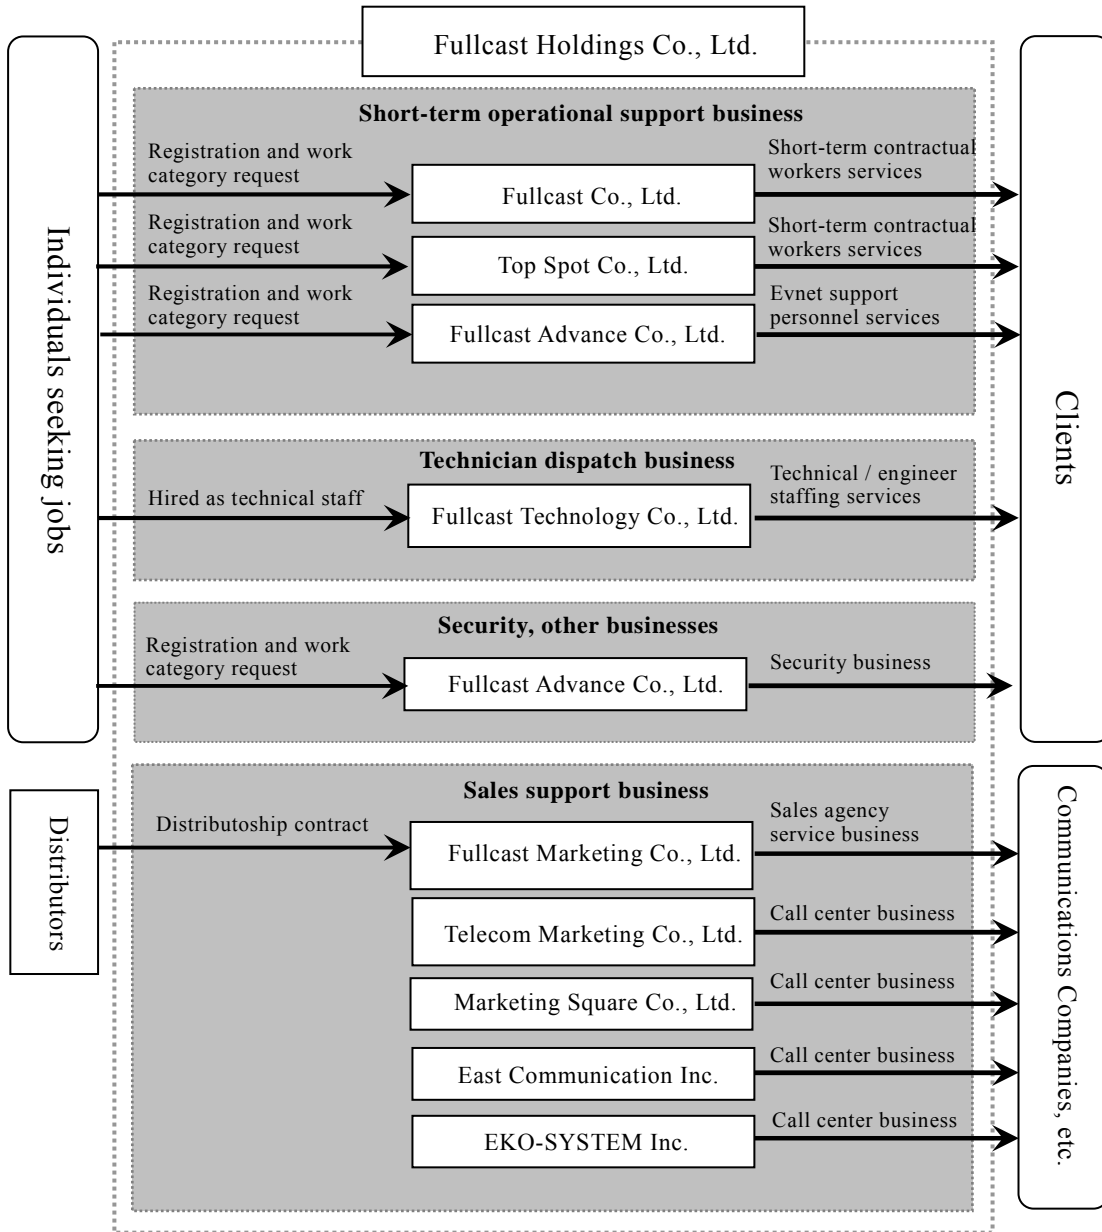

Notes 1: The “Major business activities” category follows the business segment classification.

2: Marketing Square Co., Ltd. was merged into Telecom Marketing Co., Ltd. on October 1 2010.

3: The number inside the parenthesis for “Voting shares (%)” is the ratio of indirect ownership (included number).

(2) Diagram of Business Activities

A diagram of business activities is shown below:

Note1: The above diagram is current as of September 30, 2010.

2: Marketing Square Co., Ltd. was merged into Telecom Marketing Co., Ltd. on October 1, 2010.

3. Management Policies

(1) Fundamental Management Policies

The fundamental philosophy of our Group is “to contribute to society by providing employment opportunities that place importance on helping people grow and develop.” The Group aims to remain its status as an organization that can provide employment opportunities where people can fully utilize their experience at all stages of their lives. The Group also endeavors to maximize corporate value by implementing management initiatives from the standpoint of all stakeholders including shareholders, customers and employees.

(2) Target Management Indicators

The Group aims to maintain ROE (return on equity) of more than 20% and increase corporate value by focusing on a balance between profitability and growth, while maintaining financial soundness.

(3) Medium- and Long-Term Management Strategies

With the highest priority assigned to compliance as the basic assumption of our management, we are working to establish an operating base capable of sustained growth by focusing on our “Short-term operational support business” and by ensuring thorough group-wide corporate governance that fully utilizes the functionality of a holding company.

(4) Key Management Issues

The year ended September 2009 was the first fiscal year of the “New Three Year Plan”, our intermediate plan which was announced on May 8 2009. During the period, we used the plan as a basis for implementing restructuring which focused on personnel cuts and consolidation of offices. The current fiscal year was the second fiscal year of the plan, and we conducted business with the goal of achieving profitability. The September 2011 period will be the final year of the plan, and we will work to realize increased revenue and profits by further strengthening our operating base. At the same time, we will transform our business model for the Short-term operational support business by considering potential amendments to the worker dispatch law. In the future we will continue to promote rationalization as a means of fortifying our management structure, while giving the highest priority to compliance. We also seek to restore the confidence of all our stakeholders in our Company.

We will address the following issues by each business section:

- ① Short-term operational business
 - a) Maintain, raise the level of our compliance
 - b) Convert our business model to one based on introduction of jobs in response to changes in worker dispatch laws
 - c) Realize increased revenue and profit
 - d) Increase employee skills
- ② Sales support business
 - a) Strengthen management to obtain stable revenue
 - b) Realize steady expansion in the used mobile phone purchasing/sales business
- ③ Technician dispatch business
 - a) Acquire excellent engineers in each field
 - b) Maintain, raise capacity utilization rates of technicians
 - c) Reduce costs and reinforce quality control
- ④ Security, other businesses
 - a) Reduce costs by streamlining operations
 - b) Increase the receipt of security work by renovating our sales system
 - c) Maintain, raise the level of our compliance

(5) Concerning notes about going concern assumption

Consolidated accounting period for the previous fiscal year (From October 1, 2008 To September 30, 2009)	Consolidated accounting period for the current fiscal year (From October 1, 2009 To September 30, 2010)
<p>The operating environment surrounding our Company remains difficult with the sharp slowing in the Japanese economy and labor market, compounded by the cease order levied against Fullcast Co., Ltd. by the Tokyo Labor Bureau. Consequently during the year under review our consolidated sales declined by a large 42.1% year-over-year and we incurred an operating loss of 682 million yen. Against this backdrop and as of the announcement of the current fiscal year, we are in negotiations with financial institutions to revise the terms of our loans.</p> <p>With these conditions in mind, we recognize the uncertainty associated with the going concern assumption assigned to our Company.</p> <p>And in order to resolve these conditions, we seek to quickly restore stability to our management through sales, general and administrative cost reductions, rationalization of management including consolidation of subsidiary offices and reductions in staff numbers of our Group. Furthermore we will promote a strategy of selection and concentration on key business segments, use capital raised through the sale of subsidiaries' shares to repay debt and to be used as working capital, and implement a third party issuance of new shares to improve our financial position. By implementing these measures we seek to fortify our management base while giving the highest priority to compliance.</p> <p>Our Group believes that through the implementation of the various measures mentioned above we can normalize operating conditions and allay concerns over our Company due to the attachment of the going concern assumption. However at the current point in time we recognize the uncertainty surrounding our ability to achieve our earnings projections.</p> <p>Given the above factors, we will create our financial statements given the assumption of our standing as a going concern, but the uncertainties arising from our status as a going concern are not reflected in our financial statements.</p>	<hr/>

(6) Significant Accounting Policies in the Preparation of the Consolidated Financial Statements

1) Matters concerning the scope of consolidation

Consolidated subsidiaries: 10	Fullcast Co., Ltd.	Fullcast Marketing Co., Ltd.
	Top Spot Co., Ltd.	Marketing Square Co., Ltd.
	Fullcast Advance Co., Ltd.	Telecom Marketing Co., Ltd.
	Fullcast Technology Co., Ltd.	East Communication Inc.
	Fullcast Business Support Co., Ltd.	EKO-SYSTEM Inc.

Notes1: Fullcast Business Support Co., Ltd. was established on October 1, 2009 and is newly included in the scope of consolidation.

2: The consolidated subsidiary Nisso Co., Ltd. was merged into Fullcast Advance Co., Ltd. on October 1, 2009.

3: East Communication Co., Ltd. and EKO-SYSTEM Inc. became subsidiaries of Fullcast Marketing Co., Ltd. through a transfer of stock on January 1, 2010. Therefore, January 1, 2010 is used as a reference date and the companies are included in the scope of consolidation.

2) Matters concerning the application of the equity method

(a) Affiliates accounted for by the equity method —

Note: All shares of Fullcast Drive Co., Ltd. were sold on September 30, 2010. Therefore, as of that day, the company is excluded from the equity method.

(b) Items requiring listing in regards to procedures for applying the equity method

For the preparation of consolidated financial statements of those affiliates that are accounted for by the equity method but have different closing dates from the Company's, financial statements that were prepared based on a provisional settlement of account conducted on the consolidated closing date are used

3) Matters concerning the fiscal year settlement date, etc. of consolidated subsidiaries

The settlement date of consolidated subsidiaries matches the consolidated settlement date.

Furthermore, in regards to East Communication Inc. and EKO-SYSTEM Inc., both of which became new consolidated subsidiaries on January 1, 2010, the settlement date for the companies was changed from March 31, to September 30. This change was effected at the general shareholders' meeting held on June 23, 2010.

4) Matters concerning significant accounting policies

Changes in accounting policies

(Application of revision to a portion of accounting standards related to retirement benefits.)

The "Partial Amendments to Accounting Standards for Retirement Benefits (Part 3)" (ASBJ Statement No. 19, July 31, 2008) is applied in the consolidated fiscal year under review.

As a result, there was a 19 million yen decrease in operating income, ordinary income, and income before income taxes and minority interests.

Items related to information for business segments are listed in the corresponding section.

Reclassification

(Consolidated balance sheet)

The "insurance funds" (9 million yen for the current fiscal year) item which was listed for the previous fiscal year has become unnecessary in regards to the amount of the item. Therefore, from the current fiscal year, this item was changed for inclusion in the "other" portion of investments and other assets.

(7) Notes on Consolidated Financial Statements

(Notes on consolidated balance sheet)

(Million yen)

Consolidated accounting period for the previous fiscal year (September 30, 2009)	Consolidated accounting period for the current fiscal year (September 30, 2010)												
<p>*1 _____</p> <p>*2 The following figure reflects affiliated companies. Investment securities 13</p> <p>3. (Shibuya-ku, Tokyo) used in its office business and other business divisions and listed as a noncurrent asset, was subject to impairment accounting because it would be of no further use to the Company. Because the operating cash flow of other business division of our consolidated subsidiary Fullcast Advance Co., Ltd.(Shibuya-ku, Tokyo), which had continued to be negative, was not expected to turn positive in the future, impairment accounting principles were used. We implemented impairment accounting due to our outlook for the inability to use the marketing know-how of Fullcast Technology Co., Ltd. (Shibuya-ku, Tokyo). Furthermore impairment accounting was implemented for Fullcast Marketing Co., Ltd (Osaka,Osaka-Fu) due to the outlook for its inability to generate earnings.</p>	Buildings and structures	20	Machinery and vehicles	0	Tools, furniture and fixtures	1	Land	183	Total	203	Buildings and structures	19	Tools, furniture and fixtures	14	Land	73	Total	106	Buildings and structures	14	Machinery and vehicles	0	Tools, furniture and fixtures	24	Software	63	Total	101	Use	Type	Place	Business property in Office Business	Tools, furniture and fixtures	Shibuya-ku, Tokyo	Software	Business property in Other Business	Buildings and structures	Shibuya-ku, Tokyo	Tools, furniture and fixtures	Software	Business know-how	Goodwill	Shibuya-ku, Tokyo	Excess Earning Power	Goodwill	Kita-ku, Osaka	<p>*1. Impairment loss	—	—	344	736	21	1,101	—	1,101
Capital expenditure	73	5	70	45	8	201	(1)	200

Notes 1: The company's business activities are divided as given below for the purpose of internal management.

2: Business segments

- (1) Spot Business: Short-term employee dispatching services, short-term contractual workers services
- (2) Factory Business: Staffing services for production line work, contracted-out services for production line work
- (3) Technology Business: Engineer dispatching services, human resources contracting of technical staff, data communication services
- (4) Office Business: Clerical manpower dispatching, clerical work contracting
- (5) Other Business: Restaurant and bar management, security services, advertising agency services, etc.

3: Significant fluctuations in segment-based assets:

All shares of Fullcast Factory Co., Ltd. and Fullcast Central Co., Ltd., consolidated subsidiaries with significant fluctuations in segment-based assets, were transferred to a third party in June of 2009. The companies have therefore withdrawn from the factory business. As a result, assets of the factory business declined by 3,986 million yen when compared to the end of the previous fiscal year.

- 4: Of the operating expenses during the consolidated fiscal year, the amount of funds, which can not be allocated, included in the elimination or company total item is 995 million yen. It is mainly expenses associated with the administrative departments of the parent company's head office, such as Accounting.
- 5: Of assets for the consolidated fiscal year, the total amount of assets of the whole Company included into the eliminations or company total items was 7,576 million yen. They were primarily made up of long-term investment assets (investment securities) and assets involved in the administrative department.

Current consolidated fiscal year (October 1, 2009 – September 30, 2010)

(Million yen)

	Short term operational support business	Sales support business	Technician dispatch business	Security, other business	Total	Elimination or company total	Consolidated
I. Net sales and operating income							
Net sales							
(1) Sales to external customers	22,737	6,845	4,280	2,221	36,084	—	36,084

Impairment loss	—	23	—	—	23	—	23
Capital expenditure	30	15	11	6	62	65	128

Notes 1: The company's business activities are divided as given below for the purpose of internal management.

2: Business segments

(1) Short term operational support business: Short-term human outsourcing services

(2) Sales support business: Sales outsourcing services

(3) Technician dispatch business: Engineer dispatching services, human resources contracting of technical staff

(4) Security, other business: Security services, restaurant and bar management

3: Of the operating expenses during the consolidated fiscal year, the amount of funds, which can not be allocated, included in the elimination or company total item is 545 million yen. It is mainly expenses associated with the administrative departments of the parent company's head office, such as Accounting.

4: Of assets for the consolidated fiscal year, the total amount of assets of the whole Company included into the eliminations or company total items was 5,532 million yen. They were primarily made up of long-term investment assets (investment securities) and assets involved in the administrative department.

5: Changes in accounting policies

(Application of revision to a portion of accounting standards related to retirement benefits.)

The "Partial Amendments to Accounting Standards for Retirement Benefits (Part 3)" (ASBJ Statement No. 19, July 31, 2008) is applied in the consolidated fiscal year under review.

As a result, there was a 19 million yen decline in operating income of the short-term operational support business.

6: Changes in the method of business segments

Our Group has used the business segments of "Spot business", "Factory business", "Technology business", "Office business" and "Other Business". However, as the result of restructuring, we have withdrawn from the Factory business. Furthermore, from the current fiscal year (see note), we are making disclosures regarding the main services of each business. As a result, the office personnel services of our office personnel dispatch business which were included in the "Office business" in the year ended September 2009 were recorded in the "Short-term operation support business" segment.

Information on business segments for the previous fiscal year in the case of new business segments are listed below.

Previous consolidated fiscal year (October 1, 2008 – September 30, 2009)

(Subsequent events)

Previous consolidated fiscal year (October 1, 2008 – September 30, 2009)

1. Marketable Securities Submitted as Collateral

We decided in our board of directors meeting held on October 22, 2009 to submit marketable securities as collateral to ensure we have stable access to short term debts from the four banks we transact with.

(1) Objective of the Collateral Provided

Use as collateral to ensure we have stable access to short term debt from the four banks we transact with.

(2) Type and Value of Assets Submitted as Collateral

- | | |
|---|--------------------------------|
| (i) Assets Submitted as Collateral: | Shares of affiliated companies |
| (ii) Value of Assets Submitted as Collateral: | 534 million yen |

2. Reduce Value of Capital and Capital Reserves and Disposal of Retained Earnings

During our board of directors meeting held on November 13, 2009, we decided to reduce the value of our capital and capital reserves and dispose retained earnings, which we expect to receive approval in our regularly scheduled general shareholders' meeting held on December 22, 2009 to be implemented on January 31, 2010.

(1) Objective of Reduction in Our Capital and Capital Reserves and Disposal of Retained Earnings

In order to eliminate our large aggregated losses, we will respond flexibly and quickly in our capital strategy.

(2) Method of Reductions in Our Capital, Capital Reserves and Disposal of Retained Earnings

The reduction in common stock and capital reserve based on the provisions in Article 447, Paragraph 1 and Article 448, Paragraph 1 of the Companies Act is transferred to other capital surplus and then appropriated to the coverage of the deficit based on the provisions in Article 452 of the Companies Act.

(3) Amount of Reduction in Capital, Capital Reserves

(i) Amount of Reduction in Capital

Total capital was reduced by 960,820,000 yen from 3,740,820,000 yen to 2,780,000,000 yen.

(ii) Amount of Reduction in Capital Reserves

Total capital reserves were reduced 1,176,720,000 yen to 0 yen.

(4) Request for disposal of retained earnings

From among other capital surplus which occurred due to declines in the amount of capital and capital reserves, 2,130,105,616 yen is appropriated to coverage of the deficit through transfer to retained earnings brought forward.

(Reference) Details of change in amount in the above

(Yen)

	As of Sep. 30, 2009	Reductions in Capital, Capital Reserves	Disposal of retained earnings	Balance of Jan. 31, 2010 (Schedule)

(4) Concerning notes about going concern assumption

Fiscal year ended September 2009 (October 1, 2008 to September 30, 2009)	Fiscal year ended September 2010 (October 1, 2009 to September 30, 2010)
<p>The operating environment surrounding our Company remains difficult with the sharp slowing in the Japanese economy and labor market, compounded by the cease order levied against Fullcast Co., Ltd. by the Tokyo Labor Bureau. Consequently during the year under review our consolidated sales declined by a large 42.1% year-over-year and we incurred an operating loss of 682 million yen. Against this backdrop and as of the announcement of our earnings results, we are in negotiations with financial institutions to revise the terms of our loans.</p> <p>With these conditions in mind, we recognize the uncertainty associated with the going concern assumption assigned to our Company.</p> <p>And in order to resolve these conditions, we seek to quickly restore stability to our management through sales, general and administrative cost reductions, rationalization of management including consolidation of subsidiary offices and reductions in staff numbers of our Group. Furthermore we will promote a strategy of selection and concentration on key business segments, use capital raised through the sale of subsidiaries' shares to repay debt and to be used as working capital, and implement a third party issuance of new shares to improve our financial position. By implementing these measures we seek to fortify our management base while giving the highest priority to compliance.</p> <p>Our Group believes that through the implementation of the various measures mentioned above we can normalize operating conditions and allay concerns over our Company due to the attachment of the going concern assumption. However at the current point in time we recognize the uncertainty surrounding our ability to achieve our earnings projections.</p> <p>Given the above factors, we will create our financial statements given the assumption of our standing as a going concern, but the uncertainties arising from our status as a going concern are not reflected in our financial statements.</p>	<hr/>
