#### **1. Operating Results and Financial Position**

# (1) Summary of Operating Results

During the current fiscal year, Japan's economy continued to undergo a recovery trend amid an overall improvement in corporate earnings despite weaknesses in some industries, signs of improvement in corporate business condition, a moderate recovery taking place in personal consumption, and a move toward recovery in capital investments. Economic conditions are expected to continue to recover given the effects of various government policies with a new stage of life of coping with COVID-19. However, the economic horizon remains clouded due to a number of uncertainties including rising prices, supply-side constraints, fluctuations in financial and capital markets, and infection trends in China in addition to risks of a downturn in Japan's economy caused by weakening in overseas economies amid financial tightening around the world, all of which requires close attention to assess their potential impacts.

With regards to the current operating environment surrounding the staffing service industry, the employment situation is recovering, as reflected by the continuing decline in the number of unemployed and the improvement in the number of new job offers and the new jobs offers-to-applicants ratio. As for the future outlook, the operating environment is expected to continue to recover.

Against this backdrop, in the current fiscal year, the Fullcast Group implemented group management activities to achieve our goal of "Under a client first approach, aim for greater business growth and expansion of peripheral services." Our Group also carried out marketing activities focused on boosting overall profitability of the Fullcast Group, particularly in the mainstay "Placement" (Note 1) and "BPO" (Note 2) services. In addition, our Company worked to further expand its business while maximizing profits by continuing to increase productivity and promote operational efficiencies across our entire Group.

Even as the COVID-19 pandemic raged on, consolidated net sales increased by 23.4% year-on-year to 64,645 million yen. This was mainly due to growth of the "Short-Term Operational Support Business," which was supported by a number of factors including the acquisition of projects in excess of pre-COVID-19 pandemic short-term staffing demand levels, as well as the continued acquisition of public sector projects related to COVID-19-related operations.

In terms of profits, consolidated operating profit increased by 29.4% year-on-year to 9,823 million yen, with consolidated ordinary profit rising by 29.7% year-on-year to 9,884 million yen, driven mainly by the ongoing growth of client demand and increased sales of the "Short-Term Operational Support Business."

Profit attributable to owners of parent increased by 32.1% year-on-year to 6,622 million yen, on the back of the 69 million yen in gain on sale of investment securities booked as an extraordinary income following the divestment of investment securities held during the first quarter.

Furthermore, our Company applied "Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29, March 31, 2020) from the beginning of the first quarter of the current fiscal year. Although the application of the Accounting Standard for Revenue Recognition is subject to the transitional handling stipulated in the proviso to Paragraph 84 of the Accounting Standard for Revenue Recognition, there is no impact on the balance of retained earnings at the beginning of the period nor on profit and loss for the current fiscal year.

Furthermore, our Group acquired shares of Hayfield inc. on May 31, 2022, making it a consolidated subsidiary. As such, it has been included in the scope of consolidation from the second quarter of the current fiscal year.

Notes: 1. The mainstay "Part-Time Worker Placement" service and Hayfield inc.'s staffing service specializing in the real estate industry are referred to as "Placement."

2. The mainstay "Part-Time Worker Payroll Management" service, as well as other personnel and laborrelated business process outsourcing (BPO) services such as the "My Number Management" service, and the back office BPO services of BOD Group are referred to as "BPO."

The results for each of our business segments are as follows.

1) Short-Term Operational Support Business

Even as the COVID-19 pandemic raged on, net sales of "Short-Term Operational Support Business" increased

by 27.7% year-on-year to 59,439 million yen. This was due to factors mainly including the acquisition of projects in excess of pre-COVID-19 pandemic short-term staffing demand levels, as well the continued acquisition of public sector projects related to COVID-19-related operations.

In terms of profits, segment profit (operating profit) increased by 28.8% year-on-year to 10,533 million year driven mainly by the continued growth in client demand and increased sales.

#### 2) Sales Support Business

Net sales of the "Sales Support Business" declined by 18.1% year-on-year to 2,882 million yen due to the downturn in sales of telecommunications products in the sale of Internet access, which is a mainstay business.

In terms of profits, segment profit (operating profit) increased by 3.0% year-on-year to 89 million yen due primarily to efforts to curb SG&A expenses, despite lower sales.

#### 3) Security, Other Businesses

Net sales of "Security, Other Businesses" increased by 1.2% year-on-year to 2,324 million yen due to an increase in the number of permanent and temporary security projects acquired.

In terms of profits, segment profit (operating profit) declined by 17.7% year-on-year to 263 million yen, due to the special demand with high gross profit for the Olympic in the previous fiscal year, despite an increase in net sales.

#### (2) Summary of Financial Position

#### 1) Assets, Liabilities and Net Assets

At the end of the current fiscal year, total assets increased by 6,120 million yen from the end of the previous fiscal year to 35,604 million yen. Equity increased by 4,205 to 23,732 million yen (equity ratio of 66.7%), and net assets grew by 4,349 to 24,928 million yen.

Details of major changes in assets and liabilities are described as follows.

With regards to assets, current assets increased by 5,152 million yen from the end of the previous fiscal year to 29,967 million yen. This increase is attributed mainly to an increase in cash and deposits of 3,216 to 20,626 million yen and an increase in notes and accounts receivable - trade of 1,895 to 8,986 million yen.

Non-current assets increased by 968 million yen from the end of the previous fiscal year to 5,637 million yen. This increase is attributed mainly to an increase in goodwill of 698 to 1,305 million yen, an increase in deferred tax assets of 157 to 551 million yen, and an increase in investment securities of 97 to 2,111 million yen.

With regard to liabilities, current liabilities increased by 1,698 million yen from the end of the previous fiscal year to 9,659 million yen. This increase is attributed mainly to an increase in accrued consumption taxes of 421 to 2,163 million yen, an increase in accrued expenses of 344 to 1,874 million yen, an increase in accounts payable - other of 307 to 1,860 million yen, an increase in income taxes payable of 303 to 1,710 million yen, and an increase in other under current liabilities of 205 to 715 million yen caused mainly by an increase in social insurance deposits received of 231 million yen to 576 million yen.

Non-current liabilities increased by 72 million yen from the end of the previous fiscal year to 1,017 million yen. This increase is attributed mainly to a rise in retirement benefit liability of 68 to 816 million yen.

#### 2) Cash Flows

Cash and cash equivalents (hereinafter referred to as "funds") at the end of the current fiscal year increased by 3,216 million yen from the end of the previous consolidated fiscal year to 20,626 million yen (compared to an increase of 4,101 million yen in the previous fiscal year).

Equity = Total net assets - Share acquisition rights - Non-controlling interests

Equity-to-asset ratio = Equity  $\div$  Total assets

Ratio of interest-bearing debt to cash flow = Interest-bearing debt ÷ Operating cash flow (before interest and income taxes) Interest coverage ratio = Operating cash flow (before interest and income taxes) ÷ Interest paid

Market capitalization-based equity-to-asset ratio = Stock market price  $\div$  Total assets

Notes: 1. Each index is calculated using consolidated financial data.

- 2. For operating cash flows (before interest and income taxes), net cash provided by operating activities from the consolidated cash flows statement (before deducting the amount of payment of interest and income taxes) is used.
- 3. All debt involving the payment of interest and stated in the consolidated balance sheet are included in interestbearing debt.
- 4. For interest payment, the amount of interest paid in the consolidated statement of cash flow is used.
- 5. Market capitalization = Stock price at the end of the term  $\times$  Number of shares outstanding at the end of the term (excluding treasury shares).

#### (3) Future Outlook

Our Group has established the "Medium-Term Management Plan 2024," a three-year plan starting in the fiscal year ending December 2022, and has been working to fulfill this plan.

During the current fiscal year, the initial year of the plan, our Group engaged in corporate management following the target of "Under a client-first approach, aim for greater business growth and expansion of peripheral services." As a result, the Group's consolidated business results exceeded the revised full-year business forecast because the mainstay placement and BPO services grew by the increase of short-term staffing demand in our Group's mainstay business, while dispatching and outsourcing services grew following the acquisition of staffing demand for public sector projects related to COVID-19-related operations and logistics, etc..

In the fiscal year ending December 2023, our Group will aim for further growth of the Group's performance, by aiming for further business expansion centered on the mainstay "Short-Term Operational Support Business" and providing services that contribute to the improvement of convenience and satisfaction for both clients and staff alike, under the target "Aiming for create of the Group structure to flexibly address changes in the business environment, and business expansion by improving customer satisfaction based on further service improvement including DX." In addition, The Fullcast Group will endeavor to achieve ROE of 20% or higher, which we identify as indicator of improvement of corporate value, by promoting management with a focus upon capital efficiencies, and by

improving our value as a Group while building a Group-wide coordination system and enhancing our ability to respond to change.

Consolidated business forecast for the fiscal year ending December 2023 (January 1 to December 31, 2023)

Notes: 1. Basic earnings per share for fiscal year ending December 2023 are calculated in accordance with the formula below.

Forecast for profit applicable to ordinary shares

Basic earnings per share = Average expected number of shares outstanding during the fiscal year ending December 31, 2023

2. "Profit" used in the calculation of basic earnings per share is now "profit attributable to owners of parent."

#### (4) Fundamental Policy for Allocation of Earnings and Dividends for the Current and Coming Fiscal Years

We maintain a policy of enhancing returns of profits to shareholders with a target of achieving total return ratio of 50%.

We will implement shareholder returns with a target of achieving a total return ratio of 50% by enhancing profitability and further improving management efficiencies, in addition to offering dividends and share buybacks. Furthermore, we will seek to achieve our target indicator for "improvement of corporate value" of ROE of over 20%.

For the fiscal year ended December 2022, a total annual dividend will be 58 yen per share, an increase of 14 yen compared to the previous year and the same as forecast, based on the goal of achieving a total return ratio of 50%. As a year-end dividend, a dividend of 35 yen per share (12 yen increase compared to the previous year and the same as forecast) will be offered and share repurchases totaling up to a maximum 1,218 million yen will be conducted through tender offer. As a result, the total return ratio for the fiscal year ended December 2022 is expected to exceed 50.0%.

Regarding dividends in the next fiscal year, we will maintain ROE of over 20% and a total return ratio of 50% as targets for our policy regarding returns of profits to shareholders. As part of our policy of maintaining a flexible return of profits to shareholders, we have the option to offer a dividend or share buyback, or both at the current point in time. We forecast an interim dividend of 29 yen per share and a year-end dividend of 30 yen per share, for a total annual dividend of 59 yen per share.

#### (5) Risks Associated with Our Businesses

The main risks recognized by management with the potential to seriously impact our consolidated financial position, business results, cash flow conditions and other matters concerning the business and accounting conditions appearing in our securities report, are as follows. As part of our policy of proactive disclosure of information to investors, descriptions of risks may also include matters that do not necessarily fall under the category of business risks, but those which may be regarded as important factors for investors in making investment decisions or understanding our Group's business activities.

Furthermore, the possibility or timing for these risks to emerge and the impact for our Group's business results if these risks will materialize, are not included because of the difficulty in making reasonable assessments of these.

Our Group seeks to proactively identify potential business risks, prevent their occurrence and take adequate measures to address them should they appear. The following statements may contain potential risk factors which may occur in the future, and they are based on our best judgment as of the date of reporting of these financial statements.

#### 1) Fullcast Group's Policy for Business Growth

We endeavor to raise our competitive position by strengthening corporate governance and by promoting speed in both our strategic decision-making process and in the implementation of various strategies by our management. However, should these decisions and implementation take longer than anticipated and the contribution to our earnings does not proceed as planned, our Group's earnings could be negatively impacted.

Within the "Short-Term Operational Support Business," our Company engages in both "Part-Time Worker Placement" and "Part-Time Worker Payroll Management" services and other services in response to the Revised Worker Dispatching Act implemented on October 1, 2012. In addition, as new services, we provide BPO services such as the "My Number Management service," "Year-End Tax Adjustment Management service," and others. In addition, consolidated subsidiary BOD Co., Ltd. and its subsidiaries provide "Back Office BPO Services," Minimaid Service Co., Ltd. provides "Housekeeping Services," and Hayfield inc. provides "Recruitment Agency Services Specializing in the Real Estate Industry." If these business results do not progress according to forecasts, the performance of our Group could potentially be adversely affected.

In the "Sales Support Business," our Company engages in sales support for telecommunications products and call center operations. If business revenues are not generated in line with forecasts, or if large amounts of capital must be invested, or if the appeal of the products sold deteriorates, our Company and our Group's business results could be materially affected.

In addition to reinforcing our existing businesses with a view to the future, our Group has the potential to launch new business ventures through the establishment of new companies, M&A, business tie-ups and among other means. However, there are many elements of uncertainty surrounding new business ventures, and in cases where the initially expected synergies are not achieved and business profit does not meet forecasts due to changes in the business environment surrounding our Group or changes in legal regulations related to the new business venture, the performance of our Group could potentially be materially affected.

Moreover, due to the acquisition of overseas companies, our Group is exposed to foreign exchange risks, risks related to local regulations applied to businesses of acquired companies, and country risks. If these risks appear, they may adversely affect our Group's business results and financial condition.

We maintain a policy of selling shares in affiliates or marketable securities of companies which cease to provide synergies with our Group's various businesses. Also, our Group's earnings could be profoundly impacted by the implementation of impairment accounting related to goodwill as well as the shares of affiliated companies and investment securities during times when market capitalization or the actual value of companies whose shares we hold deteriorate.

#### 2) Legal Regulations

#### a) Changes in Legal Regulations

If the laws and other related ordinances applied to the business operations of the Fullcast Group are enforced or revised or legal interpretations modified due to changes in societal conditions surrounding the labor market, these enforcement, revisions or new legal interpretations could materially affect the business performance of the Fullcast Group. Applicable laws include the Worker Dispatching Act, Labor Standards Act, Employment Security Act, Industrial Accident Compensation Insurance Act, Health Insurance Act, Employees Pension Insurance Act, the Act on the Use of Numbers to Identify a Specific Individual in Administrative Procedures (My Number Act), and Immigration Control and Refugee Recognition Act (Immigration Control Act), Act on the Arrangement of Related Acts to Promote Work Style Reform (Work Style Reform Act). As a countermeasure against these risks, our Group endeavors to gather information in a timely manner concerning revisions to or changes in the interpretation of the laws and regulations applied to our Group's business operations, to address these in an appropriate manner, and quickly understand the impacts on our Group's results and financial condition.

# b) Recruitment Agency Business

Our Group provides paid-for employment placement services under the license of Minister of Health, Labor and Welfare and in accordance with the Employment Security Act. This license is valid for 5 years, and if it cannot be renewed when required because of non-compliance with the licensing requirements of Article 31 of the Act, if there are grounds to disqualify our license as prescribed in Article 32 of the Act, or if there is grounds to cancel our license, our license could be canceled or orders to suspend or halt our operations could be issued. As a countermeasure against these risks, our Group is committed to implementing compliance and risk management to prevent any violation of acts and ordinances. However, if licenses are canceled or if other measures are taken due to some reason in the future, we may be unable to continue providing paid-for employment placement services and our Group's business performance could be seriously affected.

#### c) Worker Dispatching Service

Our Group provides worker dispatching services under the license of Minister of Health, Labor and Welfare in accordance with the Worker Dispatching Act. This license is valid for 5 years, and if it cannot be renewed when required because of non-compliance with the licensing requirements of Article 7, if there is a violation of relevant laws and regulations, if there are grounds to disqualify our license as prescribed in Article 6, or if there is grounds to cancel our license as prescribed in Article 14, our license could be canceled or orders to suspend or halt our operations could be issued.

As a countermeasure against these risks, our Group is committed to implementing compliance and risk management to prevent any violation of acts and ordinances. However, if licenses are canceled or if other measures are taken due to some reason in the future, we may be unable to continue providing worker dispatching services and our Group's business performance could be seriously affected.

#### d) Various Management Services Including Part-Time Worker Payroll Management Service

Because our Group conducts outsourcing services independent of the contracting client company based upon an outsourcing agreement, we may become liable for damages caused by the incompletion of outsourcing services or delays in reporting. Should this risk materialize, our Group will work to mitigate damages by reducing costs with internal efforts, such as increasing the efficiency of operations. However, depending upon the amount of compensation for damages, our Group's earnings could be adversely impacted if we cannot absorb these costs.

#### e) Onsite Subcontracting Service

As an onsite subcontracting service provider based on subcontracts, our Group completes its subcontracting services independently at the client company of said contracts. In carrying out the work involved, we follow commonly accepted practices (as defined in Notice No. 37 of 1986 by Japan's Ministry of Labor) that separates and distinguishes between the employee dispatching and the subcontracting services and other relevant laws and regulations.

Due to the nature of the subcontracting business, our Group is exposed to productivity risks and defective product risks. As a countermeasure against these risks, our Group will work to absorb damages by reducing costs with internal efforts, such as increasing efficiency of operations. However, our Group's earnings could be adversely impacted if we cannot absorb these costs.

#### f) Sharing of Social Insurance Contributions

If legal revisions further expand the scope of social insurance and employment insurance in the future, or if the number of employees enrolled in social insurance increases due to growth in the worker dispatch or subcontracting businesses owing to the prolonged need for short-term human resources arising from chronic labor shortages at customer companies, the amount of social insurance premiums borne by our Company will increase. Also, this could lead to an increase in the number of cases requiring procedures for obtaining or losing coverage qualifications, which in turn could increase costs for clerical work. As a countermeasure against these risks, our Group strives to quickly understand the impacts on our Group's business results and financial condition by

gathering information in a timely manner concerning revisions to laws and regulations. At the same time, should this risk materialize, our Group will work to pass on the cost increase to the invoice amount for customers or make internal efforts to cut costs, such as increasing efficiency of operations. However, if the cost increase cannot be absorbed through these efforts, our Group's earnings could be materially impacted.

#### 3) Economic Trends

Our Group's business composition focused upon the "Short-Term Operational Support Business" is not susceptible to the impacts of economic trends during the current environment where there is a worker shortage due to structural factors regarding the population. However, if the economy deteriorates beyond our Group's assumptions, our Group's business results and financial condition could be affected. As a countermeasure against these risks, our Group regularly monitors economic trends and market developments, and promotes a sales strategy tailored to specific geographic regions and characteristics of customer industry. In addition to improving sales capabilities, our Group continues to work on increasing profit margin by enhancing productivity, and then working to mitigate the said risk.

#### 4) Managing the Database on Client Firms and Staff

Our Group always strives to provide staff best matched to the needs of client companies and deploy staff for clients promptly and efficiently. To facilitate this, our Group manages a database that contains information on staff work attitudes and experiences by job classification, and similar information regarding our clients.

To be prepared for the potential of a malfunction in servers, our Group makes backup databases and servers themselves are operated in a redundant configuration using multiple machines in preparation for any potential problems. However, if these servers were to fail simultaneously as a result of problems such as earthquakes or other natural disasters, cyberattacks, human errors or other factors, and this results in a system failure, our Group's operations could be seriously impeded and our earnings may be materially affected.

As a countermeasure against these risks in the future, our Group expects to make investments in information technologies as needed to help differentiate our Company from our competitors in terms of costs and services offered. Deterioration in the effectiveness of these investments could contribute to reductions in their contribution to sales growth in the future.

To appropriately manage personal information and other data, we endeavor to prevent unauthorized access, destruction, lost or unauthorized disclosure of personal information by establishing clear handling rules, strictly controlling access rights to the system and stepping up internal inspections. However, our Group's earnings could be affected by potential security breaches of personal information, and our Group could lose the trust of the public, suffer decreased sales, and become subject of claims for damages.

#### 5) Workplace Accidents and Transaction-Related Trouble

a) Recruitment Agency Business

In the process of selecting staff members who apply for jobs, the client company may file a suit against us for breach of contract or demand other compensation in the event that our Company selects and places a staff member who does not meet the recruitment requirements of the client company due to our negligence. As a countermeasure against these risks, our Group has a compliance system under which it ensures personnel in charge of legal affairs can handle various legal risks. However, our performance may be seriously affected by accidents depending upon the legal nature and the amount of money involved.

#### b) Employee Dispatching Service

In the event that a staff member is injured, becomes ill or dies during the course of performing work tasks or due to causes attributable to work at the dispatched workplace, our Group as an employer may become responsible to pay compensation according to the relevant laws and regulations including the Labor Standards Act and the Industrial Accident Compensation Insurance Act (Destination business owners that are our clients bear the

employer's liability in accordance with the Industrial Safety and Health Act, and are obliged to protect the safety of staff in accordance with the Civil Code.).

As a countermeasure against these risks, our Group fortifies staff awareness of safety by promoting occupational health and safety training for staff, as well as by posting and providing safety bulletins for on-the-job vigilance to prevent injury and illness. To provide better worker protection, our Group maintains a comprehensive general liability insurance and other insurances as an insurance program to pay agreed claims. However, should an accident not covered by this insurance occur, our Group could be forced to pay damages on the grounds of neglecting its duty to secure safety and tort liability as stipulated in labor contracts.

In addition, our Group could be sued or pressured to make other payments on allegations of accidents due to staff negligence, for violations of contracts with clients or for illegal activities of staff members in the course of performing services at the dispatched workplace. As a countermeasure against these risks, our Group has a compliance system under which it ensures personnel in charge of legal affairs can handle various legal risks. However, our performance may be seriously affected by accidents depending upon the legal nature and the amount of money involved.

# 6) Securing and Retaining Employees

In order to improve employee retention, our Group implements measures to enhance employee training and motivation. However, the loss of a greater than expected number of personnel could adversely influence the various business segments of our Group.

#### 7) Exchange Risk

Our Group assumes foreign exchange risk because it receives remittances in the local currency when converting transactions denominated in a foreign currency, including conducting sales transaction with overseas companies and dividend incomes from overseas affiliated companies. In addition, and as a general rule, the financial statements of overseas affiliates are prepared in local currency and converted into yen when preparing consolidated financial statements. Therefore, even if the value in local currency does not change with the exchange rate at the time of closing, the value after the conversion to yen may affect our Group's business results and financial statements. As a countermeasure against these risks, our Group works to mitigate risks by means of foreign exchange contracts as needed, while considering foreign currency trends.

#### 8) Changes in Accounting or Tax Systems, Others.

The new introduction of or changes to accounting standards or tax systems that cannot be anticipated by our Group could affect our Group's business results and financial condition. As a countermeasure against these risks, our Group strives to gather information in a timely manner concerning changes and the introduction of new accounting standards or tax systems in order to quickly understand impacts on our Group's business results and financial condition.

#### 9) Large-Scale Natural Disasters and Pandemics

Our Group has implemented countermeasures after working to put into place a crisis management system for contingencies. However, if natural disasters, such as typhoons, earthquakes or tsunamis, occur that exceed our Group's expectations or a pandemic occurs and spreads far beyond our Group's expectations, these events could impact the business activities of our Group or our Group's business partners, and have a negative effect on our Group's business results and financial position. As a countermeasure against these risks, the Fullcast Group has established a business continuity plan (BCP) that it reviews as necessary to be able to continue or quickly restore important business operations even during a contingency.

#### 10) Climate Change

Opportunity losses and other factors resulting from the suspension of business activities could affect our Group's

business results and financial position if our business offices and supply chains are damaged due to the intensification of natural disasters caused by climate change. Recently, social demands for climate change countermeasures have been increasing. As such, if these efforts are inadequate or do not gain sufficient understanding from stakeholders, our Group's business results and financial position may be affected by a decline in social credibility. Furthermore, if new laws and regulations related to climate change countermeasures are introduced, an increase in response costs may affect our Group's business results and financial position.

Our Group continuously analyzes the business impact of climate change-related risks and opportunities based on the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), striving to proactively disclose information.

# 2. Corporate Group

The Fullcast Group is engaged in the "Short-Term Operational Support Business" (providing timely short-term personnel services in response to changes in the amount of work at client companies), the "Sales Support Business" (mainly engaging in call center operations and agency sales of telecommunications products and others focused on distributor networks), and the "Security, Other Businesses" (providing security services mainly for public facilities and ordinary corporations, others.).

We provide descriptions of the status of affiliated companies and a diagram of our business activities as of December 31, 2022 as below.

# (2) Diagram of Business Activities

A diagram of our business activities is shown below.

#### **3. Management Policies**

#### (1) Fundamental Management Policies

Our Group considers the "sustained improvement of corporate value" to be one of its most important management issues.

We manage our business by focusing upon capital efficiency and identify ROE as a target indicator to reflect "improvement of corporate value" with the goal of realizing ROE in excess of our capital cost, which represents the expected returns by shareholders and investors from our company.

#### (2) Target Management Indicators

Our Group will endeavor to maximize corporate value by striking a balance between profitability and growth. At the same time, our management will endeavor maintain a solid financial standing and implement strategies that focus upon capital efficiency. Also, we maintain a goal of realizing a debt-to-equity ratio target of no more than 1.0 time to maintain appropriate debt levels that will enable us to make investments necessary to secure growth, while at the same time maintaining financial soundness. The Fullcast Group also seeks to achieve an ROE of over 20% as a target indicator of "improvement of corporate value."

#### (3) Medium- to Long-Term Management Strategies

With the highest priority assigned to compliance as the basic assumption of our management, we are working toward greater business growth centered on our "Short-Term Operational Support Business" and by ensuring that our Group-wide corporate governance leverages the functionality of our holding company.

In addition, under "Medium-Term Management Plan 2024," we will achieve business growth centered on the "Short-Term Operational Support Business," aspiring toward a new record high consolidated operating profit of 10 billion yen in the fiscal year ending December 2024, the final year of the plan.

### (4) Management Environment and Key Management Issues

#### Management Environment

With regards to the current operating environment surrounding the staffing service industry, in which our Group mainly operates, the employment situation is recovering, as reflected by the continuing decline in the number of unemployed and the improvement in the number of new job offers and the new jobs offers-to-applicants ratio. As for the future outlook, the operating environment is expected to continue to recover.

Our Group's mainstay segment of "Short-Term Operational Support Business" accounts for a high percentage of our Group's consolidated net sales and operating profit at around 90%. The "Short-Term Operational Support Business" segment engages in the 4 services of placement, BPO, dispatching and outsourcing, and provides short-term staffing services in a timely manner based on changes in workload at customer companies. Our Company recognizes that the "Short-Term Operational Support Business" is moving from the conventional domain of providing necessary human resources in response to gaps in the busy period and slow periods of clients driven by the declining labor force population in Japan recently, to business domains for part-time workers directly hired by companies to maintain the minimum necessary workforce. Going forward, we will endeavor to the alleviate workers shortages in Japan by providing a more sophisticated of short-term staffing services.

#### Key Management Issues

Our Group has established the "Medium-Term Management Plan 2024" and has been working to fulfill this plan.

In the fiscal year ending December 2023, the second fiscal year of the plan, our Group will focus on the main management issue of "Aiming for create of the Group structure to flexibly address changes in the business environment, and business expansion by improving customer satisfaction based on further service improvement including DX," and make efforts to resolve this issue. In implementing the management policy in (1) to (3) and the medium- to long-term management strategies, our Group recognizes that the business and financial issues to address with prioritize are as follows.

#### 1) Sustained Improvement of Corporate Value

As stated in (1) Fundamental Management Policies and (2) Target Management Indicators, we consider the "sustained improvement of corporate value" as one of our most important management issues. Accordingly, we will manage our businesses by focusing upon capital efficiency through the maintenance of an appropriate level of shareholder equity while at the same time continuing to return profits to shareholders. In addition, we seek to realize further expansion of profits in the "Placement" and "BPO" services in the Group's mainstay "Short-Term Operational Support Business".

In the future, we will continue to promote rationalization as a means of fortifying our management structure, while at the same time assigning the highest priority to compliance. We also seek to further increase the confidence of all stakeholders in our Company.

#### 2) Achievement of "Medium-Term Management Plan 2024"

Based on "Medium-Term Management Plan 2024," we will work toward achieving the target of a "new record high consolidated operating profit of 10 billion yen in the final year of the plan."

An outline of "Medium-Term Management Plan 2024" is presented below.

a) Applicable period

Three years from the fiscal year ending December 2022 to the fiscal year ending December 2024

### b) Numerical Targets

Consolidated operating profit of 10 billion yen in the fiscal year ending December 2024

- · Further examine M&A opportunities to expand group synergies

# 4. Fundamental Principles on Selection of Accounting Standards

Our Group has a policy of preparing consolidated financial statements in accordance with Japanese Accounting Standards (Japanese GAAP) because of the ease of comparison with other companies and given the increased burden required to prepare consolidated financial statements in accordance with International Financial Reporting Standards (IFRS).

Furthermore, we will continue to consider conditions in both Japan and abroad with regards to the potential implementation of IFRS.

#### (Changes in Accounting Policies)

(Application of Accounting Standard for Revenue Recognition)

Our Company applied "Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29, March 31, 2020) from the beginning of the current fiscal year. As a result, our Company recognizes earnings at the amount expected to be received in exchange for goods or services when the control of the promised goods or services is transferred to the customer.

Although the application of the "Accounting Standard for Revenue Recognition" is subject to the transitional handling stipulated in the proviso to Paragraph 84 of the "Accounting Standard for Revenue Recognition," there is no impact on the balance of retained earnings at the beginning of the period nor on profit and loss for the current fiscal year.

Due to the application of the "Accounting Standard for Revenue Recognition," the "Allowance for subscription cancellations" presented in "Current liabilities" in the consolidated balance sheet for the previous fiscal year will be included in "Other" of "Current liabilities" from the current fiscal year. In accordance with the transitional handling stipulated in Paragraph 89-2 of the "Accounting Standard for Revenue Recognition," our Company has not restated the previous consolidated fiscal year using the new presentation method.

(Application of Accounting Standard for Fair Value Measurement)

Our Company applied "Accounting Standard for Fair Value Measurement" (ASBJ Statement No. 30, July 4, 2019) from the beginning of the current fiscal year. In accordance with the transitional handling stipulated in Paragraph 19 of the "Accounting Standard for Fair Value Measurement" and Paragraph 44-2 of the "Accounting Standard for Fair Value Measurement" and Paragraph 44-2 of the "Accounting Standard for Fair Value Measurement" (ASBJ Statement No. 10, July 4, 2019), our Company has decided to apply the new accounting policy established by the "Accounting Standard for Fair Value Measurement" into the future. This will have no impact on the consolidated financial statements.

#### (Additional Information)

(Accounting Estimates Associated with the COVID-19 Pandemic)

While there are concerns about changes in the economic situation and business environment due to the worldwide spread of COVID-19, our Group has thus conducted accounting estimates assuming that there are no material impacts from COVID-19 during the current consolidated fiscal year because it is difficult to predict when the COVID-19 pandemic will end. However, there is a possibility that material impacts will occur on the consolidated financial statements in subsequent fiscal years, if we review our judgments according to changes in the future situation.

(Treatment of Application of Tax Effect Accounting Related to the Transition from the Consolidated Taxation System to our Group Tax Sharing System)

Regarding the transition to a Group Tax Sharing System newly established under the "Act Partially Amending the Income Tax Act and Other Acts" (No. 8 of 2020), and the reviewed matters of the Non-Consolidated Taxation System when transitioning to a Group Tax Sharing System, Fullcast Holding and some of its subsidiaries have not applied the provisions of paragraph 44 of the "Implementation Guidance on Tax Effect Accounting" (ASBJ Guidance No. 28, February 16, 2018) due to the treatment stipulated in paragraph 3 of the "Practical Solution on the Treatment of Tax Effect Accounting for the Transition from the Consolidated Taxation System to our Group Tax Sharing System" (ASBJ PITF No. 39, March 31, 2020). The amounts of deferred tax assets and deferred tax liabilities are based on the provisions of the tax law prior to amendment. Also, our Company plans to apply the "Practical Solution on the Accounting and Disclosure Under the Group Tax Sharing System (ASBJ PITF No. 42; August 12, 2021)," which

stipulates the accounting treatment and disclosure of income taxes, local income taxes, and tax effect accounting when applying the group tax sharing system, from the beginning of the subsequent fiscal year.

(Notes on Significant Change of Shareholders' Equity)

(Segment Information and Others)

#### [Segment information]

Previous consolidated fiscal year (January 1 to December 31, 2021)

1. Description of reportable segments

Our Company's reporting segments are business units for which financial information can be obtained independently from our Company's various structural units, and they are subject to regular examination by the Board of Directors to form decisions about allocations of management resources and to evaluate their performance.

Our Group has three reporting segments: 1) "Short-Term Operational Support Business," 2) "Sales Support Business" and 3) "Security, Other Businesses." The Short-Term Operational Support Business provides timely short-term staffing services that cater to fluctuations in client companies' workloads. The Sales Support Business mainly engages in call center operations and agency sales of telecommunications products focused on distributor networks. The Security, Other Businesses mainly conducts security work for public facilities and general companies.

2. Explanation of measurements of sales, profit (loss), asset, and other items for each reportable segment

The accounting methods for each segment reported are similar to those described in the "Significant Accounting Policies in the Preparation of the Consolidated Financial Statements."

The profit of each reporting segment is an amount based upon its operating profit. Inter-segment profits and transfers are based on market prices.

Current consolidated fiscal year (January 1 to December 31, 2022)

1. Description of reportable segments

Our Company's reporting segments are business units for which financial information can be obtained independently from our Company's various structural units, and they are subject to regular examination by the Board of Directors to form decisions about allocations of management resources and to evaluate their performance.

Our Group has three reporting segments: 1) "Short-Term Operational Support Business," 2) "Sales Support Business" and 3) "Security, Other Businesses." The Short-Term Operational Support Business provides timely short-term staffing services that cater to fluctuations in client companies' workloads. The Sales Support Business mainly engages in call center operations and agency sales of telecommunications products focused on distributor networks. The Security, Other Businesses mainly conducts security work for public facilities and general companies.

2. Explanation of measurements of sales, profit (loss), asset, and other items for each reportable segment

The accounting methods for each segment reported are similar to those described in the "Significant Accounting Policies in the Preparation of the Consolidated Financial Statements."

The profit of each reporting segment is an amount based upon its operating profit. Inter-segment profits and transfers are based on market prices.
