#### \* Presentation concerning implementation status of quarterly review procedures

These financial results are not the subject of the review procedure based upon the Financial Instruments and Exchange Act, and at the point in time when these financial results were disclosed, review procedures for financial statements based on the Financial Instruments and Exchange Act were not yet completed.

#### \* Explanation about the proper use of financial business forecast and other important notes

Of all plans, business forecasts, strategies and other information provided within this document, those which are not historical facts are future outlooks based upon certain conditions and our management's judgment based upon currently available data. Therefore, we warn against relying solely upon these outlooks in assessing our business results, corporate value and other factors. Please also be informed that actual financial results may vary widely from our business forecasts due to various factors.

Important factors that may have an impact upon our actual financial results include: (1) the economic and financial conditions surrounding our Company and changes in the employment situation, (2) damages to infrastructure arising from disasters including earthquakes, and (3) changes in relevant laws, including the Labor Standards Act and the Worker Dispatching Act, and in interpretations of these Acts

However, factors that affect our financial results are not limited to only these. Furthermore, please note that we may choose not to reexamine our business forecasts in response to new data, future events or other factors. For assumptions underlying our business forecasts and related issues, please refer to Page 3 "1-(3) Qualitative Information Concerning Consolidated Business Forecasts" of the "Appendix."

#### 1. Qualitative Information Concerning Performance for the Current Quarter

#### (1) Qualitative Information Concerning Consolidated Operating Results

During the first quarter under review, Japan's economy continued to undergo a steady recovery on the back of generally favorable corporate views about business conditions thanks to improved corporate profits and employment as well as a recovery seen in capital investment, and despite some uncertainties including growing caution in some areas of the economy. Economic conditions are expected to continue to improve steadily in the future based upon the outlook for the employment and income environments to continue improving on the back of various Government stimulus policies. However, uncertainties continue to cloud the economic horizon including the risk of downward pressures from the economic downturn in China and other Asian countries and resource dependent countries, rising uncertainty in other overseas economies, and the effects of volatility in financial and capital markets.

With regards to the operating environment surrounding the staffing service industry, the job offers-to-applicants ratio continued to steadily improve, while the number of new job offers increased and the unemployment rate gradually improved. Therefore, the future outlook points to further improvement in the employment situation.

Against this backdrop, the Fullcast Group implemented group management activities with the goal of "realizing increased profitability through growth in mainstay services and improved productivity" during the consolidated first quarter under review. In particular, marketing activities with an emphasis on boosting overall profitability of the Fullcast Group and focused on the mainstay part-time worker placement and part-time worker payroll management services were conducted. In addition, efforts are being made to create a structure for realizing higher profits by increasing productivity and promoting operational efficiencies across the entire Fullcast Group.

Consolidated net sales increased 13.6% year on year to 5,731 million yen. This sales growth was primarily attributed to increased sales realized in the part-time worker placement(hereinafter referred to as "Placement") and part-time worker payroll management(hereinafter referred to as "Management") services, which are both mainstay services within the short-term operational support business.

In terms of profits, consolidated operating income increased 26.8% year on year to 519 million yen on the back of the higher sales derived from growth in mainstay services of the short-term operational support business and initiatives to improve productivity. Consolidated ordinary income increased 72.6% year on year to 587 million yen because of the increase in profits derived from the acquisition of an equity stake in Beat Co., Ltd.

Quarterly net income attributable to Fullcast Holdings Co., Ltd. increased 85.4% year on year to 481 million yen following a decrease in corporate income, resident and business taxes resulting from the reduced tax burden following the introduction of the consolidated tax payment system.

"Accounting Standard for Business Combinations" (ASBJ Statement No. 21, September 13, 2013) was applied from the consolidated first quarter under review, and as a result "quarterly net income" has been reclassified as "quarterly net income attributable to Fullcast Holding Co., Ltd."

The results for each of our business segments are as follows.

#### 1) Short-term operational support business

Net sales of the short-term operational support business increased 13.2% year on year to 5,179 million. This increase is attributed primarily to initiatives to grow both Placement and Management services and the growth in the number of

Fullcast Holdings Co., Ltd. (4848) Financial Statement and Results for the First Quarter of the Term Ending December 2016 customers on the back of the launch of the "My Number management" service, which boosted sales of Management services.

With regards to profits, operating income increased 28.0% year on year to 674 million yen due to the positive influence of growth in mainstay services and reductions in SG&A expenses resulting from initiatives to improve productivity.

#### 2) Security business

Net sales increased 17.3% year on year to 552 million yen due mainly to increases in the temporary security business. At the same time, operating income increased by 10 million yen year on year to 27 million yen (up 57.0% year on year) owing to the higher sales.

#### (2) Qualitative Information Concerning Consolidated Financial Position

Assets, liabilities and net assets

At the end of the first quarter, total assets decreased by 475 million yen from the end of the previous fiscal year to 11,148 million yen. Equity decreased by 9 to 7,521 million yen (An equity ratio of 67.5%), and net assets declined by 9 to 7,521 million yen.

Details of major changes in assets and liabilities are described as follows.

With regard to assets, current assets decreased by 692 million yen from the end of the previous fiscal year to 9,499 million yen. This decrease is attributed mainly to a decline in cash and deposits of 896 to 5,510 million yen due to the payment of the year-end dividend for the fiscal year ended December 2015, acquisition of treasury stock, and payment of corporate income and consumption taxes, which offset an increase in other current assets of 202 to 613 million yen due mainly to a rise in accounts receivable-other of 182 to 411 million yen due to the refund of withholding tax related to the dividends of a subsidiary for the current fiscal year.

Noncurrent assets increased by 217 million yen from the end of the previous fiscal year to 1,648 million yen. This is mainly attributed to a rise of 204 million yen in other investments and other assets to 932 million yen due mainly to an increase in investment securities associated with the acquisition of Beat Co., Ltd. from 189 to 540 million yen.

With regard to liabilities, current liabilities decreased by 445 million yen from the end of the previous fiscal year to 3,166 million yen. This decrease is attributed mainly to a fall in accounts payable-other of 122 to 616 million yen,income taxes payable of 443 to 62 million yen and accrued consumption taxes of 199 to 384 million yen due to tax payment upon the final return, which offset an increase in provisions for bonuses of 69 to 70 million yen, other current liabilities of 183 to 355 million yen due mainly to social insurance premium deposits decreasing 120 to 1 million yen despite withholding income tax deposits increasing 299 to 317 million yen.

Noncurrent liabilities decreased by 21 million yen from the end of the previous fiscal year to 460 million yen due mainly to a decline in net defined benefit liability of 20 to 402 million yen.

#### (3) Qualitative Information Concerning Consolidated Business Forecasts

Regarding our earnings forecasts for the full fiscal year ending December 2016, earnings on a consolidated basis for the

Fullcast Holdings Co., Ltd. (4848) Financial Statement and Results for the First Quarter of the Term Ending December 2016 quarter under review remained in line with our plans overall, led by the short-term operational support business. Accordingly, we maintain our outstanding earnings forecasts for the fiscal year ending December 2016 (first half and the full year), which were announced on February 12, 2016.

### 2. Matters Concerning Summary Information (Notes)

#### Changes in accounting principles, accounting estimates, and re-presentation of changes

(Change in Accounting Policy)

(Application of Accounting Standard for Business Combinations)

"Accounting Standard for Business Combinations" (ASBJ Statement No. 21, September 13, 2013), "Accounting Standard for Consolidated Financial Statements" (ASBJ Statement No. 22, September 13, 2013), and "Accounting Standard for Business Divestitures" (ASBJ Statement No. 7, September 13, 2013) were applied from the consolidated first quarter under review, which resulted in changes to the presentation of quarterly net income. The consolidated quarterly financial statements and consolidated financial statements for the previous consolidated first quarter and the previous fiscal year have been revised to reflect this change in presentation.
